

## **FinEx Metals Completes Oversubscribed \$4,356,000 Private Placement**

**Vancouver, British Columbia, April 7, 2025:** FinEx Metals Ltd. (the "Company" or "FinEx") is pleased to announce it has completed a non-brokered subscription receipt private placement for gross proceeds of \$4,356,000.

Tero Kosonen, Chairman and CEO of FinEx Metals, commented: *"The completion of this oversubscribed financing represents a significant milestone for FinEx as we move toward listing on the TSX Venture Exchange. The strong participation from both new and existing investors signals confidence in our strategy and the geological potential of our flagship Ruoppa Gold Project. With this capital now secured, we are fully-funded to drill-test our highest priority gold targets in northern Finland this coming summer."*

The gross proceeds from the financing will be held in escrow and shall be released after the Company has been issued a receipt for a Prospectus and has met all TSXV requirements for the listing. A total of 19,800,000 Subscription Receipts priced at \$0.22 were sold. Each Subscription Receipt will, subject to fulfillment of the Escrow Release Conditions, entitle the holder to receive one Unit of the Company for no additional consideration. Each Unit shall consist of one common share and one half of one warrant, with each whole warrant exercisable into one additional share at a price of \$0.35 for a period of 24 months from the Escrow Release Date. The Company intends to submit a non-offering Prospectus and listing application on the TSXV in April 2025.

The proceeds from the financing will be used for the first-pass diamond drill program on the Company's flagship Ruoppa property in Finland, other exploration activities and general working capital.

### **About the Ruoppa Project**

The Company's flagship Ruoppa project is situated in the Central Lapland Greenstone Belt in Finland, adjoining Agnico Eagle's Kittilä mine land position, the largest gold mine in Europe and in proximity to the land position that hosts the recent Ikkari discovery by Rupert Resources. The 2024 field program at Ruoppa consisted of a top-of-bedrock drilling campaign that has identified a series of high-priority gold targets that extend over approximately 2.7 kilometres. Ruoppa is fully permitted for drilling and a first-pass diamond drill program is planned for summer 2025 upon successful listing on the TSXV.

### **About FinEx Metals Ltd.**

FinEx Metals Ltd. is a gold-focused mineral exploration company with a portfolio of 100% owned, royalty free projects near existing mining operations in the Central Lapland Greenstone Belt in Finland. The Company's flagship Ruoppa project adjoins Agnico Eagle's Kittilä mine land position, the largest gold mine in Europe and is situated in proximity to the land position that hosts recent Ikkari discovery by Rupert Resources.

**Forward-Looking Statements:**

This news release includes certain forward-looking statements and forward-looking information (collectively, “forward-looking statements”) within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical fact, included herein including, without limitation, statements regarding the proposed listing on the TSX Venture Exchange, future capital expenditures, exploration activities and the specifications, targets, results, analyses, interpretations, benefits, costs and timing of them, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Often, but not always, forward looking information can be identified by words such as “pro forma”, “plans”, “expects”, “may”, “should”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, “believes”, “potential” or variations of such words including negative variations thereof, and phrases that refer to certain actions, events or results that may, could, would, might or will occur or be taken or achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Such risks and other factors include, among others, risks related to the anticipated business plans and timing of future activities of the Company, including the Company’s exploration plans and the proposed expenditures for exploration work thereon, the ability of the Company to obtain sufficient financing to fund its business activities and plans, the ability of the Company to obtain the required permits, changes in laws, regulations and policies affecting mining operations, the Company’s limited operating history, currency fluctuations, title disputes or claims, and environmental issues and liabilities.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements, except as otherwise required by law.
