
FINEX METALS BEGINS TRADING ON TSX VENTURE EXCHANGE AND ADVANCES 2025 EXPLORATION PROGRAM

Vancouver, British Columbia, June 18, 2025: FinEx Metals Ltd. (TSX-V: FINX) ("FinEx" or the "Company") is pleased to announce that its common shares will begin trading today on the TSX Venture Exchange (the "Exchange") under the symbol **FINX**. The listing marks a key milestone as FinEx actively advances its 2025 field program across multiple targets in Finland's Central Lapland Greenstone Belt.

Tero Kosonen, the Chairman and Chief Executive Officer of FinEx, comments: *"Our listing on the Exchange comes at a time when gold's strategic relevance is growing globally. With a district-scale land position in Finland's premier gold belt and a steadily advancing field program, FinEx provides its shareholders with exposure to potential discovery-stage exploration projects in a structurally bullish gold environment"*.

2025 Exploration Program Now Underway

The 2025 field season is fully funded with a \$4M treasury and underway with concurrent exploration initiatives across the Ruoppa, Nuuti, Somma and Hangas project areas:

- Drone magnetic survey covering the Ruoppa, Nuuti, Somma and Hangas projects in June 2025;
- Soil sampling and bedrock mapping at the Nuuti and Somma projects from June to August 2025;
- Trenching to target extensions of Ruoppa East and Outamaa mineralization from July to August 2025;
- Top of Bedrock drilling on the Ruoppa project in July 2025; and
- Diamond core drilling (approximately 2,500 metres) targeting Ruoppa East mineralization from August to September 2025.

About the Ruoppa Project

The Company's flagship Ruoppa project is situated in the Central Lapland Greenstone Belt in Finland, adjoining Agnico Eagle's Kittilä mine land position, the largest gold mine in Europe, and in proximity to the land position that hosts Rupert Resources' recent Ikkari discovery. Previous work by FinEx at Ruoppa identified a series of high-grade gold targets that extend over approximately 2.7 km. High-grade rock grab samples from trenches include 52 samples above 1 g/t Au with the highest value measuring 95.1 g/t Au, within a zone extending over 250 m. Ruoppa is fully permitted for drilling and a first-pass diamond drill program is scheduled for August 2025. For more information on the Ruoppa project, refer to the NI 43-101 Technical Report dated April 14, 2015, as filed on SEDAR+ at www.sedarplus.ca.

About FinEx Metals Ltd.

FinEx Metals Ltd. (TSX-V: FINX) is a gold-focused mineral exploration company with a portfolio of 100% owned, royalty free projects near existing mining operations in the Central Lapland Greenstone Belt in Finland. The Company's flagship Ruoppa project adjoins Agnico Eagle's Kittilä mine land position, the largest gold mine in Europe, and in proximity to the land position that hosts Rupert Resources recent Ikkari discovery.

Forward-Looking Statements:

This news release includes certain forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical fact, included herein including, without limitation, statements regarding the proposed listing on the TSX Venture Exchange, future capital expenditures, exploration activities and the specifications, targets, results, analyses, interpretations, benefits, costs and timing of them, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Often, but not always, forward looking information can be identified by words such as "pro forma", "plans", "expects", "may", "should", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", "believes", "potential" or variations of such words including

negative variations thereof, and phrases that refer to certain actions, events or results that may, could, would, might or will occur or be taken or achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Such risks and other factors include, among others, risks related to the anticipated business plans and timing of future activities of the Company, including the Company's exploration plans and the proposed expenditures for exploration work thereon, the ability of the Company to obtain sufficient financing to fund its business activities and plans, the ability of the Company to obtain the required permits, changes in laws, regulations and policies affecting mining operations, the Company's limited operating history, currency fluctuations, title disputes or claims, environmental issues and liabilities, as well as those factors discussed under the heading "Risk Factors" in the Company's prospectus dated June 13, 2025 and other filings of the Company with the Canadian Securities Authorities, copies of which can be found under the Company's profile on the SEDAR+ website at www.sedarplus.ca.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements, except as otherwise required by law.
